

What We Do & Engagement Options

Dualign is an executive and strategic advisory firm helping CEOs, founders, owners, and boards of \$5M–\$500M companies align leadership behavior with enterprise strategy — so performance accelerates without cultural fracture.

Our approach is grounded in the **Heart & Head** framework: balancing emotional intelligence with analytical rigor to drive operational discipline and durable results.

ENGAGEMENT OPTIONS

STRATEGIC ENGAGEMENT AI Governance & Operationalization Governance frameworks, IP protection, P&L impact analysis, and agentic AI readiness. We translate between technical teams and the board. Outcome: An AI North Star document and board-vetted governance framework — not another pilot that goes nowhere.	ONGOING ADVISORY Operating Rhythm & Execution Discipline Operating rhythms, review structures, and performance systems that keep execution on track. Decision velocity, accountability cadence, and measurable improvement. Outcome: A repeatable operating cadence with built-in accountability, quarter over quarter.
12–24 WEEK EMBED Fractional COO/CTO — Embedded Operating Leadership Senior-level leadership embedded with your team. We don't just advise — we own the operating cadence, the right meetings, systems, and accountability. Outcome: A professionalized operating system that runs without us.	STRATEGIC ENGAGEMENT High-Stakes Transition Strategy & 90-Day Operating Plan Strategic intent translated into a 90-day execution plan with decision rights, clear owners, and measurable targets. Outcome: A prioritized roadmap your entire leadership team is aligned behind — so strategy drives results.
ONGOING ADVISORY CEO/Founder Advisory — The Shadow COO High-cadence 1-on-1 advisory and mentoring for the CEO who needs unfiltered truth, not polished presentations. Drawing from decades of wins, losses, and everything in between. Outcome: Faster, higher-confidence decisions with less personal cost.	BOARD ROLE Board & US National Security Governance Governance built on “nose in, fingers out” — strategic oversight and accountability without crossing into management's lane. Corporate, advisory, and GSC board governance for FOCI-mitigated companies. DCSA, NISPOM, and ITAR/EAR experienced. Outcome: Board-level governance that satisfies regulators, investors, and national security requirements — without slowing growth.

Dualign engagements are designed to build execution that holds, increase decision velocity, and reduce the hidden tax of leadership friction. The goal is a simple, repeatable operating system with clear owners, decision rights, and cadence that sustains performance and outlasts our engagement.

\$450M+ Global Organization Led • **30+** Years C-Suite Experience • **2x** EBITDA Margin Doubled
